HR Team

PT Hasnur Riung Sinergi

Jakarta City, South Jakarta, Indonesia

Dear HR Team,

I am writing to formally apply for the Logistic Dept. Head position at PT Hasnur Riung Sinergi, as advertised on LinkedIn. With my background in procurement, logistics and on-site project administration, I am confident that I can contribute effectively to your organization.

I have professional experience as a Procurement Officer and through a Logistic Internship Program, where I develop a solid understanding of supply chain management, supplier coordination and material control. Currently, I am working on-site at the Kansanshi Mining Site in Zambia, which has strengthened my hands-on experience in data entry and management, site working hours regulation, and problem-solving within a mining environment. I am detail-oriented and well organized, adaptable, and committed to maintaining integrity and high standards of work quality and safety compliance.

I am particularly interested in joining Harita Nickel as I am eager to contribute my skills and experience to support your procurement operations and organizational objectives. I believe my background aligns well with the requirements of this role.

Thank you for considering my application. I would welcome the opportunity to discuss my qualifications further and am available for an interview at your convenience.

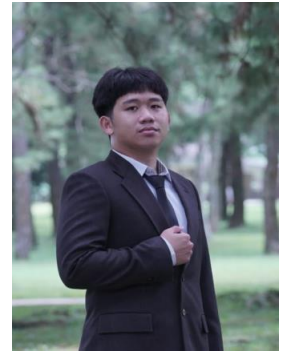

Yours sincerely,

Luiz

CURRICULUM VITAE (CV)

MY PROFILE

Project Administration professional with hands-on experience in mining construction projects at Kansanshi Mining Plc. Skilled in daily reporting of SMP construction work activities, timesheet administration, manpower planning data compilation, site coordination, camp accommodation management, supporting engineering and project construction administrative tasks.

Procurement & Supply Chain experience as a Procurement Officer at PT Epiterma Mas Indonesia providing end-to-end procurement support for project department needs. Experienced in supplier coordination, purchase order processing, trend tracking, progress monitoring and ensuring timely availability of operational needs, safety PPE etc.
